

RevelRex

PROTECTING THE VALUE OF CARE

MEDICAL BILLING | CODING | DENIALS | CREDENTIALING | PCMH

Every visit billed. Every dollar collected.

Revelrex runs your billing, coding, denials, credentialing and PCMH transformation, from the first claim to the last dollar, and shows you every claim in one dashboard. More revenue captured. Fewer surprises.

Weekly

schedule-to-claim reconciliation

Same day

rejection correction

50 states

served remotely

1 dashboard

claims, invoices, tickets

OUR SERVICES

Everything your revenue cycle needs, in one team.

Credentialing & Enrollment

Providers enrolled with every payer before their first patient, with every application status visible.

Medical Coding

Clean, compliant coding from your notes. Unclear documentation goes back to the provider the same day.

Medical Billing

Claims out daily, rejections fixed the same day, and a monthly report you can actually read.

Denial Management

Every denial worked, appealed on time and traced to its cause, so it stops coming back.

Closing Gaps in Care

Organized outreach and documentation that closes the care gaps your payers are measuring.

PCMH Transformation

From readiness assessment to submission: a clear path to Patient-Centered Medical Home recognition.

RCM Audit & Leakage

Find the visits that never became claims and the claims never paid, plus how to fix both.

Healthcare Websites

A fast, mobile-friendly site where patients request appointments, fill forms and find you.

Most billing companies submit claims. We run the process around them.

Weekly schedule-to-claim check

Every arrived appointment is matched to a signed note and an accepted claim, so unbilled visits surface in days, not at year end.

Denials reported by cause and owner

Each denial is traced to the step that caused it, with the person who can prevent the next one.

Your systems, your dashboard

We work inside your EMR and clearinghouse through accounts you control. See everything, any time.

A scope you can read

Master agreement, service order and BAA, signed electronically and stored in your dashboard.

Access you can see and revoke

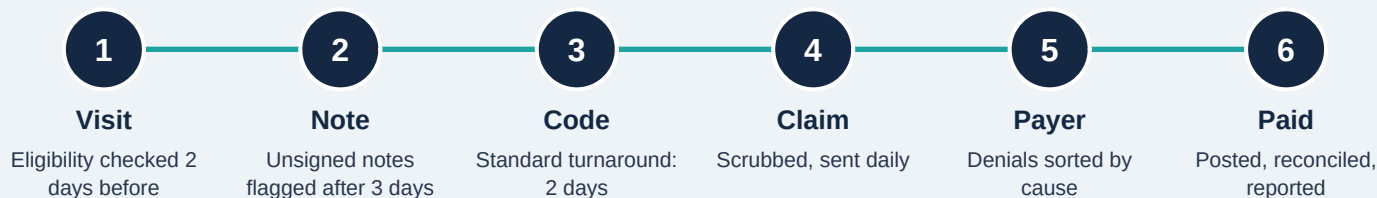

Encrypted, masked and logged on every reveal. Least-privilege roles.

We train the workforce too

Our staff and students practice on Revelrex EHR, never on your live system.

THE REVENUE CYCLE, WATCHED END TO END

RESULTS PRACTICES SEE

9 to 2 days

median charge lag after a Texas family medicine group moved to Revelrex

1.8% of visits

found unbilled in a fixed-scope audit for a Florida internal medicine group

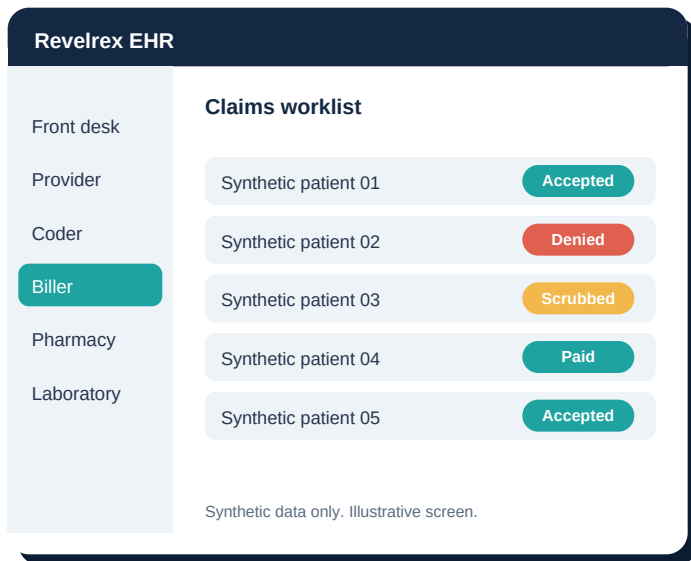

Same day

correction of clearinghouse rejections, well inside filing limits

"For the first time I can see what was billed, what is outstanding and why. The monthly report tells me what my front desk needs to fix, and denials that used to sit for months are appealed within days."

Practice Owner, Family Medicine | Independent practice, Texas

Build a billing-ready team by doing, not watching.

Our programs run on **Revelrex EHR**, a complete outpatient training environment with pharmacy, laboratory, payer and clearinghouse workspaces. Students work real workflows on synthetic patients and graduate with a certificate.

RCM Fundamentals

2 weeks | live online + lab

EMR Training

3 weeks | live online + lab

Medical Coding

12 weeks | live online + lab

Medical Billing

12 weeks | live online + lab

25 roles

8 workspaces

40 synthetic patients per sandbox

HOW AN ENGAGEMENT WORKS

Five simple steps. No phone call required.

- 1 Select & request**
 Pick services and tell us about your practice. About five minutes.
- 2 Review**
 We prepare your proposal, usually within two business days.
- 3 Agree**
 Sign the agreement, service order and BAA electronically.
- 4 Onboard**
 Add providers and locations and grant secure access.
- 5 Go live**
 Services start on the effective date. See it all in your dashboard.

 **HIPAA compliant**
BAAs and workforce training

 **SOC 2 compliant**
Security, availability, confidentiality

 **Every reveal logged**
Encrypted access records

 **Least privilege**
Granular roles, MFA for admins

CERTIFIED EXPERTISE

Worked with AAPC-certified medical billing specialists

Your claims are prepared and reviewed with credentialed professionals, backed by weekly reconciliation and denial root-cause reporting.
